## PROJECT

### ExpenseFlow - Daily Expense Tracker

- HTML, CSS, JavaScript, PHP, MySQL
- Built a full-stack web application to track and manage daily expenses.
  - Implemented user authentication, CRUD operations, and real-time balance updates.
  - Designed a clean, responsive UI for easy navigation and usage.

### Tiffinly - Home Cooked Meal Subscription Platform (In development)

- HTML, CSS, JavaScript, PHP, MySQL
- Developing a full-stack web app with role-based access for users, admins, and delivery partners.
  - Implementing features like meal plan selection, order tracking, and secure authentication

## CAREER OBJECTIVE

Enthusiastic and detail-oriented student pursuing Bachelor’s degree in Computer Applications, seeking to leverage my strong foundation in programming and web development at Google. Eager to contribute to innovative projects that enhance scalability, artificial intelligence, and machine learning capabilities as a Software Engineer.

## EDUCATION

- Bachelor of Computer Applications - March 2023 - pursuing GPA9.33**
